Our case. Not a finding of any court.

Our case, prospective. Not a finding of any court.

Source. Compiled from greathousefarmwiki.wordpress.com on 19 October 2026.

This edition. 681 of the wiki’s 734 published pages, including the Evidence Register and every Evidence page from EV-0001 to EV-0238. Text, quotations and tables are reproduced as published on the wiki. Web navigation, share buttons, search boxes, forms and embedded players are omitted; videos are listed as web links. The PRINCE2 project-management pages and the Kissed Frogs scope register are not included in this edition; they remain on the wiki.

Using this book. Entries in the Contents and the Index, and links from one wiki page to another, jump to that page in this book. Other links open on the web. Each wiki page opens with its wiki page number, the date it was last updated and its web address. The PDF bookmarks list every chapter and page.

Legal notices. See Legal Notices, Copyright and Disclaimer (page 2024).

Start Here — Great House Farm (Tŷ Mawr)

Wiki page 3921 · last updated 2026-10-19 · greathousefarmwiki.wordpress.com/start-here/

Page ID: 3921 · **Title:** Start Here — Great House Farm (Tŷ Mawr) · **Evidence status:** Labelled line by line (PRIMARY / PRESS / CATALOGUE / TESTIMONY / SOURCE PENDING / HYPOTHESIS) · **Version:** 1.1.0 · Editing Protocol

About this page type → Read the Docs

Evidence labels: *PRIMARY DOCUMENT HELD* = the scan/copy is held and linked; *PRESS REPORT* = contemporary newspaper reporting; *CATALOGUE ENTRY ONLY* = a reference, not the underlying record; *TESTIMONY* = a named family member's recorded statement, linked to their page under Testimony; *SOURCE PENDING* = no document or identified speaker yet; *HYPOTHESIS* = inference to be tested. Fraud and concealment are allegations under investigation; the pages show the evidence for and against them.

Testimony: what each family member has said or written on record, one page per person, with dates and references → Testimony.

What happened?

[PRIMARY DOCUMENT HELD] Great House Farm (Tŷ Mawr), Llandough, was the subject of possession litigation after the Williams/Buckler family's long occupation. The reported history includes a 1916 yearly tenancy of the farm, WGR's acquisition of the reversion in 1938, possession proceedings affecting most of the farm in 1955, and separate proceedings concerning the farmhouse and garden in 1962.

[PRIMARY DOCUMENT HELD: plan and page 2] 1939 WGR–John Williams agreement (DBDT123/7): plan shows Parcel B only, highlighted (Media item 88). Typed terms visible: monthly let, eight shillings a month, "as meadow or pasture land"; tenant John Williams; landlord Western Ground Rents Ltd (Glamorgan Archives catalogue) [EV-0023]. Page 1 (parcels, acreage): not held — PENDING. DBDT123/7 page.

[PRIMARY DOCUMENT HELD; registration file incomplete] The HMLR application dates are 30 November 1982 (WA231076) and 23 February 1983 (WA240304). Mary (Nancy) Williams died on 26 March 1983. The 1988 possession and demolition sequence is recorded in contemporary press and official heritage/planning records; each type of record must be assessed separately.

Key dates

- **To 1938.** The Williams family farmed Great House Farm (Tŷ Mawr), Llandough, as Bute estate tenants (tenancy 1916) [PENDING: EV-0014]. In 1938 the estate sold to Western Ground Rents Ltd (WGR) [PENDING: EV-0019]. [PRIMARY DOCUMENT HELD]
- **1955–62.** WGR obtained possession orders against Frederick Buckler, Mary (Nancy) Williams's husband; neither was executed [PENDING: EV-0032; PENDING: EV-0041]. [PRIMARY DOCUMENT HELD] Mary (Nancy) Williams's c.1974 statement says the farmhouse, buildings and about 10 acres ("Parcel A") were sold by the Bute Estate to Daniel Thomas, with the freehold to pass to her grandfather when quarrying ceased, separately from the Bute tenancy ("Parcel B"). [TESTIMONY: Mary (Nancy) Williams]
- **1958.** As "Mrs. M D. Buckler", Mary told the county planning committee that three councils and WGR had "walked in and taken" the family's land. [PRESS REPORT: Western Mail, 20 Nov 1958, p.7]

- **1969–75.** WGR conveyed to BP Pension Trust (31 Dec 1969). On 31 Oct 1974 BP's agents wrote to "Mrs Buckler (Mrs Williams)" granting a licence; on 23 May 1975 the farmhouse passed to BP Properties Ltd [PENDING: EV-0050]. [PRIMARY DOCUMENT HELD]
- **1982–83.** BP applied to register the land (WA231076, 30 Nov 1982) and the farmhouse and garden (WA240304, 23 Feb 1983) [PENDING: EV-0066]. Mary died on 26 Mar 1983. [PRIMARY DOCUMENT HELD: HMLR schedule]
- **1984–88.** Writ 22 May 1984. Hollis J heard the case on 10 Jul 1986 and gave judgment for BP on 24 Jul 1986 [PENDING: EV-0074]. The Court of Appeal dismissed the appeal on 31 Jul 1987; the House of Lords refused leave on 3 Mar 1988 [PENDING: EV-0076]. BP took possession on 29 Nov 1988 and demolished the farmhouse from 6 Dec 1988. [PRIMARY DOCUMENT HELD; PRESS REPORT: South Wales Echo, 25 Jul 1986 p.3 and Nov–Dec 1988]

What did the 1987 Court of Appeal decide?

[PRIMARY DOCUMENT HELD — BP Properties Ltd v Buckler [1987] EWCA Civ 2] On 31 July 1987 the Court of Appeal dismissed the appeal about possession of the farmhouse and garden [EV-0080]. The judgment considered limitation and the legal effect of the 1974 licence letters. The High Court hearing took place on 10 July 1986, but judgment was given on 24 July 1986. Do not treat the appeal as deciding every later question about root title or the incomplete 1982–83 registration files.

Open questions and honest status

[HYPOTHESIS] Open question: whether the title deeds and plans supporting the registrations covered the land now called Parcel A, and whether the registration files properly record notice and the competing family interest. No lead yet proves dishonesty. The 1983 WA240304 certificate is the strongest current lead because its supporting file can be tested; the certificate alone is not proof of wrongdoing. Whether notice was sent, to whom and when remains open.

Five priority records and how to obtain them

- **[CATALOGUE ENTRY ONLY]** HMLR WA240304, item 11, Form 1C: order an official copy of the document with HMLR Form OC2 (£11 per document), quoting the title number and item 11; the same form covers the items dated 8 and 12 April 1983 and the 1905 conveyance on WA231076.
- **[CATALOGUE ENTRY ONLY]** The WA240304 file items dated 8 and 12 April 1983: request full copies, enclosures and notice/service records from HMLR.
- **[CATALOGUE ENTRY ONLY]** The 23 February 1905 conveyance on WA231076: request the deed and plan from HMLR; cross-check Bute estate material at Glamorgan Archives.
- **[PRIMARY DOCUMENT HELD]** The 11 June 1965 Llandough school conveyance (EV-0042, read 18 Oct 2026): recites a 5 Mar 1962 WGR → Lakeside & Llandough Development Co conveyance "with other property" and a £75,000 charge; the 1965 contract names "a Conveyance on sale dated 25th December 1938" as the root of title (EV-0216). The site adjoins "Llandough Farm" (OS 57), not the farmhouse, woods or green. Next: the 1962 conveyance plan and the rest of Glamorgan County Council deed wallet 1756 (Vale FOI).
- **[CATALOGUE ENTRY ONLY]** The VG41 register sheet, ownership section: ask the Vale as commons registration authority, and use Glamorgan Archives DCVG/C/7/9–10 as a finding aid.

For underlying documents and detailed analysis see the Evidence Library, The Two Parcels, the reported litigation, the Missing Records Register, the Evidence Register, the email threads with each institution (correspondence pages, e.g. Llandough Community Council, HM Land Registry), and the Master Change Log. New source leads are listed on Press and Archive Leads. Editing Protocol · Agent index.

Source screening: what has been ruled out and what remains open

Do not treat similarly named farms, Cardiff building leases, stale imported summaries or unsupported app wording as proof of Williams title or fraud. The Kissed Frogs screening register records each exclusion and its reason, while keeping potentially relevant survey, rate-book, title-file and public-authority evidence in separate tracks.

For the critical identity distinction, the NLW D 219 catalogue lists Cydfin / Tŷ Mawr Farm (107 acres) separately from Llandough Farm (166 acres): official catalogue.

Change history is maintained on the Master Change Log; no separate page-local version footer is maintained.

Great House Farm (Tŷ Mawr): The Williams–Buckler Dispute

Wiki page 8 · last updated 2026-10-19 · greathousefarmwiki.wordpress.com/

Page ID: 8 · **Title:** Great House Farm (Tŷ Mawr): The Williams–Buckler Dispute · **Evidence status:** Not yet labelled — see the Editing Protocol · **Version:** 1.1.0 · Editing Protocol

Current high-level working theory: Cedwyn Estate and repeated parcel capture

The family's hypothesis is that Great House Farm / Tŷ Mawr may have belonged to a wider historic Cedwyn/Cydfin estate connected with Llandough and Leckwith, and that successive land transactions, possession events and registrations may have fragmented or obscured older parcel interests. The proposed forty-parcel extent and any Wales-wide colonial/imperial mechanism remain unproved hypotheses. See the Cedwyn Estate Working Theory for the supporting leads, competing explanations and decisive document tests.

Great House Farm (Tŷ Mawr), beside St Dochdwy's Church at Llandough-juxta-Penarth, was the Williams family home. Mary (Nancy) Williams's witness statement c.1974 (Mary (Nancy) Williams testimony) traces its occupation to at least 1667. The central dispute is whether the farmhouse plot remained a distinct parcel and was later improperly folded into another title.

Original Parcel A and Parcel B — then three later Parcel-A strands

The working reconstruction is that the 1877 Bute–Thomas transaction marks the separation between Parcel A—the farmhouse, garden, buildings and associated land—and Parcel B, the eastern agricultural fields. The family's working title theory treats the end of quarrying and last rent in 1928 as the point at which Williams became the "virtual freeholder" of Parcel A; the original title documents remain unresolved. The 1877 Bute–Thomas agreement, the 1938 Bute–WGR conveyance and the 1939 tenancy and plan are key records for testing that reconstruction [PENDING: EV-0019].

Three alleged Parcel-A successor routes: Forest, BP centre and Council/VG41

BP's documented title chain concerned Parcel B. The family now tests a three-strand Parcel-A model: a northern woodland route associated with a 1961 deed and later Forest of Cardiff title history; a south-eastern route associated with VG41's 1970 village-green registration; and the occupied central house-and-garden route associated with BP's 1982–83 registration and the 1987 amalgamation with Parcel B. In this reconstruction, the alleged BP synthetic Parcel A concerns the middle component, not the entirety of the historic Parcel A. The 1961 deed and 1970 register remain separate records whose mapped scope and title effect must be checked; neither by itself proves a freehold transfer or coordinated action. The family identifies a sequence that must be kept distinct: the 1949–1953 unwritten agricultural tenancy (which the Court of Appeal later treated as a protected periodic tenancy, while the family disputes any extension to Parcel A); a separate unsuccessful attempt to make Frederick a tenant in 1954; and later tenancy offers and proceedings in 1959, 1962, 1965 and 1974. This remains subject to source-by-source analysis and is not a finding of deliberate wrongdoing. The allegation of a synthetic title must be tested against the original instruments, plans, court records and registration files—not treated as a court finding. See the permissive-occupation claim, the Parcel A/B title claim and the Land Registry title history.

[SOURCE PENDING] Mary is described as disabled, having undergone a leg amputation. It is also alleged that her water supply was cut off and that family title deeds were removed or stolen, and that Parcel A was registered behind her back, without effective notice to her, during the period of her final illness and death. The disputed registration and notification issue is examined in the 1983 registration and alleged late-notice record and Mary (Nancy) Williams's statement.

ITV News footage — 1988

The ITV Cymru Wales report records the 1988 dispute at Great House Farm. Compare it with the South Wales Echo report, the event record and the demolition chronology.

Institutional decisions and records handling

The current dispute involves the Land Registry registration history, the Cadw ATISN 27021 response, and surviving records held by archives and public bodies. Correspondence and decisions are linked in the FOI and Public-Authority Reply Register, Source Conflicts Register and Missing Records Register.

The family's outstanding legal and procedural concerns are recorded in the Master Scrutiny Issue Register and Legal Review, with institutional analyses in the Cadw forensic critique and GGAT forensic review.

The two parcels

Parcel A — House Plot: the farmhouse, garden, buildings and associated land, as defined in the Parcel A/B title claim. The exact legal extent depends on the deeds and plans linked there.

Parcel B — Eastern agricultural land: the fields east of the House Plot, identified in the 1938–39 tenancy record and its linked plan; the legal extent must be tested against the original instrument.

The family's case is that Parcel A never passed into the Western Ground Rents → BP title chain. The relationship between the 1939 Parcel B tenancy, later possession proceedings and the 1982–87 registration/amalgamation remains disputed and is tested in the Parcel A/B title claim, the 1987 amalgamation review and the Land Registry titles. The Two Parcels →

Parcel map: Bute → A/B → three alleged Parcel-A successor routes

How to read it: follow the lines vertically. Each elbow shows only a year and parcel label; select it to expand the evidence, source links and limits. The faded grey line is the historic Williams Parcel-A estate as claimed in the working reconstruction. The proposed later routes are Forest of Cardiff (upper/north), BP's house-and-garden registration (middle), and the Council/VG41 green-record route (lower/south-east), alongside Parcel B. This is a hypothesis that the old Parcel A was later represented by three distinct successor or administrative strands; only BP's middle registration is described here as the alleged synthetic registration. The exact polygons and title effects remain to be proved against the original plans.

BUTE · ROOT

Starting point: Bute Estate. The tube-map model starts with a single Bute freeholder line before the reported 1877 division. The precise instruments, conveyed rights and boundaries must be read from the original deeds and plans; the graphic records the present working model, not an established legal finding.

See Bute Estate and the 1877 Agreement.

1877 · A

Reported split in Mary (Nancy) Williams's account. Mary (Nancy) Williams's witness statement c.1974 (Mary (Nancy) Williams testimony) says that a Bute-to-Daniel Thomas & Son arrangement concerned the house parcel for quarrying, with a route by which the freehold was to pass to Williams when quarrying ended. The original 1877 Great House Farm instrument has not been located; the related EV-0006 entry remains pending. A separate 1877 99-year lease identified for a Clyde Street house plot in Roath is not Great House Farm title evidence and is excluded.

Sources: EV-0006 · Daniel Thomas and Alfred Thomas · Mary (Nancy) Williams's statement.

1877 · B

Parcel B track. On the working model, the eastern agricultural fields remain on the Bute side of the division until the 1938 transfer to Western Ground Rents. This is the separate-fields route, not evidence that the same instrument conveyed the whole farmhouse plot.

Compare the 1938 Bute–WGR conveyance and plan (EV-0019) and The Two Parcels.

DATE UNKNOWN · BARN

Undated local-history marker — not a title event. A secondary summary says Jim Driscoll ("Peerless Jim") had his first fight in a barn at Great House Farm, Llandough, but the year and the underlying National Monuments Record citation have not yet been located in the Wiki. Until the cited record is identified, treat the location as a reported historical association, not as a dated fact or evidence of ownership.

Lead: secondary biography summary. This is a research lead, not a substitute for the cited record.

1897 · LOCAL

Regional context only. A press cutting catalogued as May 1897 reports Marconi wireless experiments at Lavernock Point, with signals tested across the water toward Flat Holm. This was not an event at Great House Farm and does not bear on Parcel-A title. It is included as a local-history milestone only.

Wiki source: EV-0011 — "Wireless Telegraphy. Marconi Invention Tested at Lavernock".

1916 · A+B

A+B in one reported agricultural tenancy. In February 1916 the Marquess of Bute granted John Williams a yearly agricultural tenancy described in the judicial history as concerning the "whole farm". On Mary (Nancy) Williams's witness statement c.1974 (Mary (Nancy) Williams testimony), the house parcel had already been separated by the reported 1877 arrangement; that makes the extent of the 1916 tenancy a central scope conflict, not something this line resolves. The 1939 plan later depicts Parcel B only.

Sources: 1916 tenancy · EV-0014 · 1938–39 revised tenancy.

1928 · A

Family's "virtual freeholder" position. Mary (Nancy) Williams recalled that quarrying ended and the last rent to Alfred Thomas was paid in 1928. The family treats this as the point at which its Parcel-A interest became the Williams family's own freehold/beneficial estate. The receipt and original 1877 instrument are not presently held, so the exact legal effect remains a title proposition to prove rather than a completed registration finding.

Sources: EV-0016 — 1928 rent receipt (not held) · 1877/1928 chronology · Mary (Nancy) Williams's statement.

1938 · B

Parcel B → Western Ground Rents (WGR). The present reconstruction places the eastern fields on the WGR route after the 1938 Bute–WGR conveyance of the reversion. The deed and plan must be compared with the reported earlier Parcel-A split; do not infer that the WGR chain necessarily included all three later Parcel-A components.

Source: EV-0019 — Bute–WGR conveyance and plan · Western Ground Rents.

1939 · B

WGR, not Bute, grants the revised tenancy. The May 1939 WGR–John Williams agreement and plan have been examined; the displayed plan depicts the eastern fields (Parcel B). This is a distinct tenancy from the 1916 Bute grant. The plan does not prove Parcel A's root title by itself.

Source: EV-0023 — DBDT123/7, 1939 agreement and plan.

1949–53 · A?

Do not conflate the two occupancy stories. The Court of Appeal accepted that Frederick had a protected periodic agricultural tenancy, despite there being no written agreement; that tenancy is associated with the agricultural holding/Parcel B. Separately, an attempt was reportedly made [SOURCE PENDING] to treat Mary's Parcel-A occupation as permissive in this period. The exact offer and reply have not been located, and the available record does not establish that any offer covered the north woodland or south-east green.

Sources: Frederick Buckler — tenancy · Permissive-occupation claim.

1949–53 · B

Agricultural tenancy strand. The real periodic agricultural tenancy should not be described as fictional or failed. The unresolved issue is its mapped extent and whether the description "whole farm" was later used more broadly than the original tenancy evidence supports.

Sources: Frederick Buckler · 1939 plan (EV-0023).

1954 · B?

Separate alleged further tenant-making attempt. The Wiki records a reported 1954 attempt to treat Frederick as a tenant, but the original source has not been attached. The proposed land, exact terms and reason it failed remain unverified. Do not apply it automatically to all of Parcel A or to the forest/green strands.

Source: EV-0031 — pending source.

1955 · A?

Reported physical separation, exact legal scope pending. The working reconstruction (SOURCE PENDING until EV-0032 and EV-0034 are obtained) is that the 4 July 1955 execution took Parcel B together with the north forest and south-east ground of Parcel A, while Mary remained in physical occupation of the central farmhouse/buildings/garden group. The sealed order, writ/return and any plan are needed to establish exactly what land and parties were covered. This event is the claimed physical split; the 1961 and 1970 records are later and separate strands.

Sources: EV-0032 · EV-0034 · 1955 possession order.

1955 · B

Parcel B possession route. The 1955 process is reported as enforcement against the farm holding, but the original order and execution return have not been obtained. Keep the order's stated area separate from the land physically entered or later registered.

Sources: EV-0032 · EV-0034.

1959 · A-C

Central occupied house and garden. The Court of Appeal's history describes WGR's tenancy offer to Mary in 1959 and her refusal. The original offer and reply remain unlocated. Present record: a dispute about the occupied centre; no map ties the offer to the north woodland or lower green.

Source: EV-0039 — tenancy offers (1959/1965).

1961 · A-N

Northern woodland / Forest of Cardiff route — possible mapped overlap. The catalogue identifies a 29 March 1961 deed involving WGR, South Western Brick & Tile and "Cardiff City"; the deed and plan have not yet been inspected. The wiki catalogue says the land is associated with the later woodland title, but until the original plan is plotted it is a high-value lead, not proof that the deed transferred this Parcel-A polygon or that Cardiff/Forest of Cardiff then held the whole upper third.

Source: EV-0040 — 1961 deed (pending original/plan) · Three-part Parcel A assessment.

1962 · A-C

Central house-and-garden proceeding. The Wiki records a Cardiff County Court possession order dated 11 December 1962, but the original order and plan remain pending. Its extent must be plotted; the separate forest and VG41 routes should not be assumed to have been within it.

Source: EV-0041 — 1962 order (not yet held).

1965 · A-C

Further offer concerning the centre. The Court of Appeal records a further weekly tenancy offer concerning the farmhouse and garden, which was not signed or returned and for which no rent was paid. The original offer/reply remain unlocated. This is not evidence by itself about A-North or A-South-East.

Source: EV-0039 — tenancy offers.

1969 · B

WGR → BP Pension Trust on the B route. The Wiki records a 31 December 1969 conveyance to BP Pension Trust. The instrument and plan should establish which WGR land entered this chain. Under the working model this is Parcel B; it should not be treated as proof that the north woodland or VG41 ground transferred with it.

Source: EV-0043 — 1969 conveyance (pending copy) · BP Properties and BP Pension Trust.

1970 · A-SE

South-east ground / VG41 register route. The Wiki records VG41 as registered on 16 June 1970. The original application, map and ownership file remain outstanding. This is the later administrative/green-register strand associated with the lower Parcel-A segment. Village-green registration does not, on its own, prove that Llandough Council acquired the freehold or that the exact polygon matches the asserted Parcel-A boundary.

Source: EV-0044 — VG41 registration (file/map pending) · Woodland + VG41 loss dossier.

1974 · A-C

BP licence letters: central house-and-garden only. Letters dated 31 October 1974 were later treated by the Court of Appeal as placing Mary's continued possession under a licence. The legal effect of those letters was material to the appeal; their described subject is the farmhouse and garden. They must not simply be projected onto the northern woodland or lower VG41 ground.

Sources: EV-0050 — licence letters · EV-0080 — 1987 Court of Appeal judgment.

1982–83 · A-C

BP's alleged synthetic Parcel A: middle / occupied centre. The WA231076 and WA240304 registration applications belong on this centre line in the working model. The allegation under investigation is that the registered plot mimicked the historic Parcel A centre and was later combined with Parcel B. The original registration applications, supporting deeds, plans and notifications must decide that proposition. This must not be shown as if it automatically covered the forest or VG41 area.

Sources: Land Registry titles · EV-0066 — WA240304 record · EV-0078 — 1987 amalgamation plan/application.

1987 · A-C+B

1987 endpoint: the middle A line joins Parcel B. This is the family's three-strand reconstruction of the recorded 2 February 1987 amalgamation: the house-and-garden/middle Parcel-A route associated with BP is combined with Parcel B. The north/woodland route and south-east/VG41 route remain separate lines in this model because their earlier records and mapped extents are distinct. That is a research proposition to test against the registration plan and original source titles, not a finding that the court adjudicated all three parcels or that fraud occurred.

Sources: EV-0078 — amalgamation plan/application · EV-0080 — Court of Appeal judgment · Three-part Parcel-A assessment.

1987 · B

Parcel B endpoint. On the working model, Parcel B and the registered middle/house-and-garden Parcel-A strand join in the 1987 registration/amalgamation record. The northern woodland and south-east green are not assumed to follow the same path without polygon-level proof.

Source: EV-0078.

A-N · FOREST

Upper / northern strand. The working model associates A-North with the later Forest of Cardiff woodland title route. The 1961 deed-plan match is still unverified and a later 2005 transfer/excision is recorded in the Wiki, so present ownership must be checked against current title plans before being asserted.

Sources: EV-0040 · GHF-E150 — 2005 transfer/excision.

A-C · BP + B

Middle strand. The alleged BP synthetic Parcel A is confined in this model to the central houses/buildings/garden, with the 1987 amalgamation joining that registered route to Parcel B. The precise boundary and root-title basis remain under test.

Source: Three-part Parcel A assessment.

A-SE · LCC/VG41

Lower / south-east strand. The line is the VG41/council green-registration path, not proof of council freehold. The register map and ownership file must be compared with the asserted Parcel-A polygon.

Source: EV-0044.

B · BP

Parcel B. The eastern fields follow the Bute → WGR → BP Pension Trust route on the working model. The 1939 plan depicts Parcel B only. The 1987 registration event is shown as joining Parcel B with the middle house-and-garden title route, not with every area historically claimed as Parcel A.

Sources: EV-0019 · EV-0023.

Reading rule: a coloured line identifies a proposed parcel pathway; it does not itself prove freehold ownership, a conveyance, a fraudulent act or coordination between institutions. The decisive comparison is deed/order/registration plan against the same three Parcel-A polygons. For the complete working assessment see Three Parts of Parcel A.

Questions still at issue

- What exact land is described in the 1877 agreement, the 1938 conveyance and the 1939 tenancy plan?
- How did the earlier instruments connect to the 1982–83 registration files and the 1987 amalgamation?
- Was notice of the registration served, when was it received, and what opportunity to object followed? The allegation is set out in the late-notice allegation; the original notice remains pending in GHF-E180.
- What did the court decide in BP Properties Ltd v Buckler, and what root-title questions remain disputed? See the judgment-scope analysis.
- What did the records available to heritage bodies, Cadw and the planning authority show before the farmhouse was demolished?

Forensic reviews, legal issues and next steps

The Forensic Master Chronology, independent cross-review and evidence capture schedule address competing title interpretations, missing and adverse records, concealment questions and the documents needed to test each proposition. The case timetable and responsibilities are recorded in the Project Plan and management highlight reports.

For the wider Cedwyn Estate working hypothesis, see Cedwyn Estate Working Theory. This page is not, by itself, proof of that hypothesis.

Great House Farm: Case Overview and Key Records

Wiki page 2623 · last updated 2026-10-19 · greathousefarmwiki.wordpress.com/site-hierarchy-tree-view-expand-collapse/

Page ID: 2623 · **Title:** Great House Farm: Case Overview and Key Records · **Evidence status:** Not yet labelled — see the Editing Protocol · **Version:** 1.0.0 · Editing Protocol

Great House Farm and the disputed title

Great House Farm (Tŷ Mawr) stood beside St Dochdwy's Church at Llandough-juxta-Penarth. The Williams / Buckler family traces its connection to the home to at least 1667; Mary (Nancy) Williams's statement (c.1974) records this (Mary (Nancy) Williams testimony).

The central dispute is whether Parcel A—the farmhouse, buildings, garden and yard—had a distinct title history from Parcel B, the eastern fields. The family's claim to Parcel A is that it did not pass into the Western Ground Rents and BP title chain. The question must be tested against the original agreements, conveyances, plans and Land Registry files; the family's wider argument is set out in the overall working theory.

Parcel A, Parcel B and the conveyance record

- GHF-E115 — the 1877 Bute–Thomas agreement, GHF-E116 — the reported 1877 lease to John Williams (original unlocated) and GHF-E117 — Bute trustees' accounts are central to testing Mary (Nancy) Williams's c.1974 statement (Mary (Nancy) Williams testimony) of the earlier house-plot arrangements [PENDING: EV-0006; PENDING: EV-0007; PENDING: EV-0008].
- GHF-E118 — the 1916 tenancy and plan, GHF-E119 — the 1924 drain agreement and plan and GHF-E120 — the 1928 rent receipt and end of quarrying bear on the land's description and the end of quarrying [PENDING: EV-0014; PENDING: EV-0015; PENDING: EV-0016].
- GHF-E121 — the 1938 Bute–WGR conveyance and plan and DBDT123/7 — the 1939 WGR–John Williams tenancy and plan are key to the dispute over which land was conveyed or let [PENDING: EV-0019; EV-0023].
- GHF-E131 — the 1969 WGR–BP Pension Trust conveyance and GHF-E132 — the 1971 abstract of title are followed by the HMLR schedule of first-registration documents, the WA231076 register, its title plan, and records for WA513690 and its title plan.

The distinct-parcel contention and the effect of the 1987 amalgamation are disputed questions, not conclusions established by the existence of the later register alone.

Occupation, possession proceedings and BP v Buckler

The 1955 High Court possession papers and writ and execution record, the 1959 and 1965 WGR offers, the 1962 possession order, and Mary (Nancy) Williams's 1974 plea and pleadings concern possession and the claimed status of her occupation [PENDING: EV-0032; PENDING: EV-0034; PENDING: EV-0041]. The 1974 licence letters are material to the later dispute [PENDING: EV-0049; PENDING: EV-0050].

BP Properties Ltd v Buckler and the 1987 Court of Appeal judgment are the central judicial records [EV-0080]. The judgment decided possession and licence; whether it finally determined the root-title claim on its merits is an open issue; the judgment's scope and the issues left undecided are addressed in BP v Buckler: Scope, Decided and Undecided.

Evidence of the family's occupation and acts of ownership, including the tree-planting account, is recorded in GHF-E151 and Mary (Nancy) Williams's statement.

Registration and the 1983 notice allegation

The registration record includes the WA231076 first-registration file (FC-001), the WA240304 first-registration file (FC-002), and the HMLR schedule of documents. The recorded WA231076 title register and title plan should be compared with the instruments relied on for the land description and the 1987 amalgamation.

[SOURCE PENDING] Notification connected with the 1983 registration arrived only after Mary (Nancy) Williams died on 26 March 1983 [PENDING: EV-0060]. That account remains an allegation: the original notice and evidence of dispatch, receipt and the objection deadline have not been verified. GHF-E180 records the pending original, and the disputed issue is set out in the 1983 late-notice allegation.

1988 removal and demolition

The ITV Cymru Wales report, the 3 December 1988 South Wales Echo article and the demolition chronology record the public dispute and the farmhouse's removal. The newspaper article's image and transcription are available in GHF-E090-N08. The suggestion that persons in the footage may have been SAS or undercover personnel has no named source yet (SOURCE PENDING); Branwen September 2026 recollection is that the men who detained her appeared to be soldiers (GHF-E114; Branwen testimony); this remains unverified and is addressed in the identity allegation and GHF-E181.

Heritage, planning and archaeology

The relevant records include the 1974 architectural survey and floor plan, the 1982 GGAT warning letter, the 1987 local-plan record and the 1988 Cadw inspection photographs and listing-decision record. Planning records include the officer's report and outline permission, the 1992 GGAT letter and reserved-matters approval, and the 1994 archaeology report and Condition 18 record. Later land transfers are recorded in GHF-E149 and GHF-E150.

Public-authority handling and records disclosure

Later enquiries concern the registration history, heritage decisions and surviving files. Relevant records include the HMLR stage-two complaint decision, HMLR stage-one complaint decision, HMLR's registration-history letter, the paper-file retrieval letter and the Cadw ATISN 27021 response.

The outstanding issues and responses are recorded in the Master Scrutiny Issue Register, FOI and Public-Authority Reply Register, Source Conflicts Register and Missing Records Register. The family's identified legal and procedural concerns are set out in the Legal Review: Fraud, Land and Human Rights, alongside the Cadw forensic critique and GGAT forensic review.

Cedwyn, Cydfin and Tŷ Mawr

Earlier place-name and manorial records include the Cedwyn / Cwm-Cedwyn index, the 1392 boundary reference, the 1547 Cydwin lease, and Bute name variants from 1552–1824. See also the historical map, 1824 Tŷ Mawr map and manorial-evidence review. Similar names alone do not prove identical boundaries or title.

Current case scrutiny and next actions

The current legal and records work is summarised in Where things stand, the Tightrope roadmap, the Project Plan and the Justice Plan. Decisions, risks and work ownership sit within PRINCE2 Project Management and its monthly highlight reports. The restoration objective is set out in The Restoration Campaign.

Key case records: Evidence Library · Master Timeline · Evidence Chain · Records Access Chronology · Sources and Archives · Anticipated Objections and the Family's Answers.

AI-agent instructions for editors

Where Things Stand — October 2026

Wiki page 947 · last updated 2026-10-19 · greathousefarmwiki.wordpress.com/where-things-stand/

Page ID: 947 · **Title:** Where Things Stand — October 2026 · **Evidence status:** Not yet labelled — see the Editing Protocol · **Version:** 1.0.0 · Editing Protocol

Next milestone — Thursday 22 October 2026, 7.00pm: Llandough Community Council considers Great House Farm / Tŷ Mawr under Item 10, the first public council consideration in decades. Open to the public in person and on Zoom (details from the Clerk). Meeting page and briefing · Meeting toolkit and PDF pack. Work package WP-LCC-22; outcome published here by 29 October.

Master records-access status — 8 October 2026

This 8 October control update supersedes earlier date-specific summaries on this page where they differ. It is the current public status view. Documented facts are distinguished from planned actions; a missing record is not treated as proof of its contents.

Controlling property-loss case — 9 October 2026. The family's established title case is that the 1877 arrangement took effect in 1928 when quarrying and rent to Thomas ended, passing the full Parcel A to the Williams family. Parcel A includes the farmhouse/buildings, barn, stable and yard west of the house, garden, forest north of the house, and ground south-east later registered as VG41. Parcel B is the separate eastern agricultural fields. The 1939 WGR–John Williams agreement/plan is already obtained and depicts Parcel B only. [SOURCE PENDING] The 1949 attempt to make Mary's occupation appear permissive failed. Mary (Nancy) Williams said the title papers went missing in 1950–52 (witness statement c.1974, Mary (Nancy) Williams testimony). [SOURCE PENDING] WGR's 4 July 1955 enforcement of Parcel B also seized the Parcel-A north forest and south-east green under "whole farm" wording [PENDING: EV-0034]. Mary's defence of the remaining occupied house/buildings/garden group did not narrow the full Parcel-A claim. The primary title case and the alternative limitation case (twelve years from 1928 potentially maturing by 1940 if statutory conditions were met) are distinct. Current execution focuses on tracing the forest and green through subsequent titles and remedies; D696 is background only, and no 1939 retrieval is needed.

- **Scale:** more than 20 public bodies and archives have been approached since November 2025.
- **Deadlines:** four statutory/review deadlines fall between 26 and 28 October: Wales Office IR/26/16, Cadw ATISN 27589, Vale 00211557, and HMLR subject access; the MoD escalation control is also 28 October [PENDING: EV-0187].
- **Vale 00210772:** internal review requested 7 July remains unanswered; formal chase was made 7 October. The current escalation decision point is 16 October.
- **HMLR:** the first-registration schedule contains 43 documents; the 1969 root deed is not among them. The underlying first-registration evidence remains a recovery target.
- **RCAHMW RC26-0375:** treated as fully answered on 6 October; next action is to order scans of NMR 6048941, 6048943 and 6048945.
- **Heneb/GGAT:** the HER/source-file work and formal complaint remain live; source-file follow-up is due 12 October and the complaint outcome is expected around 3 November [PENDING: EV-0180].
- **National Archives:** CAS-347296-M0V4Y1 internal review was sent 7 October; the House of Lords papers have been identified and the bundle remains to be obtained.
- **Museum Wales:** FOI 2026-036 was answered 5 October; the review window is 40 working days.

Next control dates: 9 Oct HMCTS/MoJ chase and RCAHMW scan order; 12 Oct Heneb and NLW follow-ups; 13–14 Oct archive, TNA, Companies House and Vale scrutiny actions; 16 Oct Vale/ICO decision point; 20 Oct Cadw complaint chase if still unresolved; 23 Oct Heneb chase; 26 Oct Wales Office, Cadw and Vale deadlines; 28 Oct HMLR SAR and MoD escalation control; 3 Nov Heneb complaint/deferred reply; 18 Nov ICR window control.

Control rule: HubSpot is the private execution ledger; the Wiki is the public record. The status table is updated weekly and the Highlight Report monthly. An acknowledgement is not a result: a request is complete only when its acceptance test is met.

Wider Cedwyn Estate theory cross-reference: The current high-level theory asks whether an older Cedwyn/Cydfin estate was fragmented through repeated parcel-level dealings across Llandough and Leckwith. It remains under test: the key next steps are original deeds, estate maps, mapped title extents and succession records. Read the Cedwyn Estate Working Theory.

Welcome to the Great House Farm Wiki documentation. Use this guide for explanations of the website, its page types and evidence method. Case and evidence pages should get to their substantive material quickly; they should not repeatedly explain the wiki's general conventions.

Start here

What this wiki is for

The wiki organises historical records, correspondence, archival references, planning and heritage material, chronology, and analysis relating to Great House Farm. Its purpose is to make underlying evidence traceable and help readers distinguish what a source records from what someone infers from it.

How to read a case page

Look for the source or evidence item first, then its description, context and any interpretation. A named person's testimony, an allegation, a hypothesis, an inference and a formal finding are different kinds of statement and must not be treated as interchangeable.

How the website is organised

Individual records and artefacts support evidence pages; evidence pages support chronologies and topic groupings; higher-level analysis links back to underlying evidence. A claim should be traceable to its source wherever one exists. This is the intended information architecture, not a claim that every existing page already follows it perfectly.

Page types and evidence hierarchy

Evidence and artefact pages

An evidence page records a particular document, image, map, register entry, correspondence item or other artefact. Identify the source and provenance, describe what is actually visible or recorded, transcribe accurately where appropriate, and link to the original or catalogue reference when available. Keep interpretation distinct from the source description. Do not fill gaps by inventing missing content.

Forensic assessment and institutional review pages

A forensic assessment examines a defined question against identified evidence. It should move directly into the assessment: scope and question, evidence reviewed, findings or observations, competing explanations, limitations, confidence and next evidential steps. It is not a declaration that wrongdoing occurred. Separate documented facts, family evidence, allegations, inference and unanswered questions; cite the supporting records at the point of use.

Evidence catalogues and registers

Catalogues and registers are finding aids: they organise records, identifiers, dates, custodians, status and links. They should make material easier to locate rather than repeat long explanations of the overall project. Preserve stable identifiers and distinguish confirmed entries from leads or placeholders.

Chronologies and timelines

Chronologies arrange events by date and link each material entry to its source. Record date precision and uncertainty honestly, distinguish contemporaneous records from later recollection, and flag conflicts rather than silently harmonising them.

Case analysis, issue registers and legal pages

Analysis pages connect evidence to a defined issue or argument. Show the reasoning chain and the evidence that supports or contradicts it. Distinguish court findings and documented procedural history from legal arguments, disputed allegations and hypotheses. Attribute contested claims and do not present a theory as judicially established unless the judgment actually establishes it.

Evidence Register

Index of every evidence item: EV ID, date, title, type, status, repository/reference, old GHF-E ID. Evidence Register.

EV-NNNN evidence pages

One page per evidence item, under the Evidence Register. Fixed table: EV ID, date, type, evidence label, repository/reference, status (HELD with scan link, or PENDING), provenance, proves, does not prove, claims that rely on it.

Pending Evidence

Ranked list of records known to exist but not held: holder/reference, how to obtain, cost, who can obtain it. Pending Evidence.

GHF-E catalogue entries

Older evidence-library entries (GHF-E###): one record or event per page with type, date, holder and evidence status. The Evidence Register gives each one's EV ID.

Claim and allegation pages

One proposition per page. Each statement cites its evidence (EV or GHF-E ID) or is marked PENDING or HYPOTHESIS. Family positions are attributed as such.

Hypothesis and theory pages

Working theories, not findings. State what would confirm or refute them, and the counter-evidence.

Correspondence catalogues

Emails and replies reproduced unaltered. Wording inside them is the correspondent's, not the wiki's. A correction sits in a short note beside the email, with its source.

Index pages

Navigation only (Start Here, Agent index, registers). Not evidence.

Protocol pages

Rules for editors and agents: Editing Protocol, Site Agent Operating Rules, Brand & Developer Guidelines.

Master Change Log

Central record of material edits: date, page, before, after, reason/source. Master Change Log.

Damages quantification

Each head of loss: legal basis, method, sourced inputs, low / central / high in today's £, dependencies. Labels: QUANTIFIED, ESTIMATE, CONDITIONAL, PENDING, TBC. Damages page.

PRINCE2 page types

PRINCE2 index

Lists the project's management products and their state.

Project Mandate

The client's instruction that starts the project: the need and the outcome wanted. Not how or when.

Project Brief

Defines the project from the Mandate: objectives, scope, constraints, tolerances, users, outline business case, project product and approach.

Project Initiation Documentation (PID)

The baseline for running the project: links the definition, Business Case, roles, approaches (quality, risk, issue, communication), plan, controls and tailoring.

Business Case

Why the project is worth doing: reasons, options, benefits, dis-benefits, timescale, costs and major risks. Reviewed at each gate.

Organisation and roles

Who holds each PRINCE2 role and whether it is confirmed.

Communication Management Approach

Who receives what, through which channel and how often.

Project Plan

Stages, dated schedule with dependencies, critical path, assumptions and the cost table.

Stage Plan

The current stage in detail and the next stage in outline.

Product Breakdown Structure and Product Descriptions

The products the project must deliver, and for each: purpose, composition, derivation, format, quality criteria, quality method and responsibilities.

Work Packages

Agreed parcels of work: products, owner, dates, tolerances, dependencies and acceptance.

Registers

Risk, issue, quality, daily log, lessons and decisions, each with a unique ID and status. Records are closed, never deleted.

Change Control

Log of change requests with impact and decision, and the blank request form.

Configuration Item Records

The controlled items (management products and EV pages), their status, location and owner.

Highlight Report

Periodic report to the Executive: status, work done, work next, tolerances, changes, issues, risks, lessons.

Report templates

Blank Checkpoint, Exception and End Stage Reports in PRINCE2 7 composition.

Evidence method

Sources, provenance and transcription

Identify source creator, date, archive or catalogue reference and custody history where known. Describe what it contains before explaining significance. Preserve source links, exact quotations where needed, and material gaps or limitations. Never invent citations or provenance.

Description, interpretation and uncertainty

Keep what a source says separate from the author’s interpretation of it. Attribute testimony to the named person and link their Testimony page; label allegations, inference and hypotheses accordingly; mark a statement with no document and no identified speaker SOURCE PENDING. State uncertainty where it changes the conclusion and include credible counter-evidence or alternative explanations.

Identifiers and versioning

Use consistent names, dates, identifiers and terminology. Where evidence pages have versions, explain what changed and preserve traceability to the source material and prior versions.

Testimony pages

One page per family member who has said or written anything on record, under Testimony. Each page lists only real sources, with date and reference: affidavits, witness statements, court records, letters, emails and newspaper quotes. Words in quotation marks are verbatim from the record held; a search snippet or OCR text is marked as such. A person with nothing on file has a page that says “No affidavit or recorded statement on file yet”. Other pages cite a document where one exists, attribute a family member’s words to that person with a link to their page, and mark anything with neither as SOURCE PENDING. Where a court ruled otherwise, the evidence is shown first and the court’s words are quoted and sourced.

Evidence labels

PRIMARY DOCUMENT HELD: copy or scan of the original held. PRESS REPORT: newspaper report, not the original. CATALOGUE ENTRY ONLY: archive catalogue entry; document not yet read. TESTIMONY: a named family member’s recorded statement (affidavit, witness statement, letter, email or newspaper quote), cited with its date and linked to their Testimony page. SOURCE PENDING: no document and no identified speaker yet. HYPOTHESIS: working theory, not a finding.

Site conventions and maintenance

Expandable content and mobile readability

The site uses explicitly authored native HTML disclosure elements, with a short summary label readers can open. Long text is not automatically converted into expandable sections site-wide. Use concise labels and collapse substantial secondary explanation where that improves scanning, but never hide essential findings or remove source material merely to shorten a page.

Editorial standards

Use clear, restrained third-person writing for public-facing case material. Do not explain a page’s purpose or repeat what it is about in the page body. Use one link sentence only: **What this page is about → Read the Docs**, linked to the closest matching anchor in this guide (for example, evidence pages, catalogues and registers, forensic assessments, chronologies, or analysis pages). Do not add a “Purpose” paragraph, generic introduction, or AI-written overview. Keep the body for substantive records, provenance, necessary caveats, scope tests, source descriptions and analysis; when removing redundant page-description text, preserve all evidence, links, quoted material and case-specific caveats.

Page header and footer

Header: Page ID · Title · Evidence status · Version. Footer, where present: “Page version & change log” table — version (MAJOR.MINOR.PATCH), date (UTC), editor, change, source; newest first.

Developer and AI-agent instructions

Before changing the site, read the Brand & Developer Guidelines. Inspect the actual page before editing; preserve evidence, links, media and hierarchy; test representative changes; and report exactly what changed and what was verified. Never claim a site-wide implementation from a single-page test.

Implementation status

This guide defines the intended shared explanation and editorial standard. It does not mean every existing page has already been audited or stripped of duplicate explanatory material. Site-wide footer links should direct readers here; page-by-page cleanup must preserve substantive case content and is only complete when verified.

Return to the Great House Farm Wiki homepage.

High-level theory cross-reference: Editorial rule for this Wiki: link materially relevant pages to the Cedwyn Estate Working Theory; state which proposition a source supports; distinguish direct evidence from inference and speculation; record counterevidence; and do not claim that the family currently owns all Llandough/Leckwith or that a Wales-wide strategy is proved without original parcel-specific title and independent corroboration.

Change history is maintained on the Master Change Log; no separate page-local version footer is maintained.

Page version & change log

Current version: 1.0.1

Version	Date (UTC)	Editor (human or agent name)	Change	Source / evidence
1.0.1	2026-10-18T23:45:38Z	GPT-6 (on Sion Buckler's instruction)	Added the one-link page-purpose rule and installed this page's local changelog.	Sion Buckler, 19 Oct 2026; Read-the-Docs editorial standards; published page checked after edit.

Agents and editors: follow the Editing Protocol and the no-page-purpose-prose rule.

CHAPTER 2

The Case

The core narrative pages: the farm, the parcels, the people, the agreements and tenancies, the possession orders, the litigation and the land titles. 43 wiki pages.

Great House Farm (Tŷ Mawr)

Great House Farm / Great House / Tŷ Mawr was a historic farm at Llandough-juxta-Penarth / Llandough near Penarth / Llandough near Cardiff, in the Vale of Glamorgan, beside the parish church of St Dochdwy's. The Wiki treats the names as historical nomenclature: a change of wording does not, by itself, establish a change of identity, title or legal extent.
